

The TravelPledge Advantage

TravelPledge makes it easy for you to maximize your donations. We believe that you'll quickly find our program to be far better than old school "consignment" programs that you may be familiar with. Plus, we make it easier for winning bidders to redeem their fun experiences because we connect each winning bidder directly with the provider (vacation provider, golf course, cruise line, hotel, golf resort, guitar instructor, etc).

Our partnership is *efficient, transparent* and *100% aligned* with your interests. This ensures that a larger percentage of the winning bid goes towards helping your great cause!

How do we do it? TravelPledge requires all participating "bucket list" experience providers to donate either half or all of the purchase price. Golf courses and instructors donate the certificates that they post. Our fees are very low because we keep our costs to a minimum; we connect winning bidders directly with experience providers, and we do not pay auctioneers to put our experiences into auctions. Whether your winning bidders are "glamping" in a national park, playing golf at a Golf Digest Top 100 golf resort or simply taking a guitar lesson, you can rest assured that we're looking out for you!
